

**REMARKS:**

In the Office Action, the Examiner states that Applicant has not correctly claimed priority to the provisional application. Enclosed find a calendar page for April of 2001 and a copy of MPEP § 1.7. Note that the due date of 7 April 2001 fell on a Saturday. In accordance with MPEP § 1.7, an application filed on 9 April 2001 if properly filed and has a good and valid claim to the priority of the provisional application.

Claim 1 has been amended and Claims 2-10 have been added to the application. The claim elements added to Claim 1 distinguish over the prior art reference cited by the Examiner. These claims are focused on the inclusion of a sizing cage subsystem which is utilized to determine the position of a sizing cage. These features are not taught or suggested by the prior art cited by the Examiner (which happen to be owned by Applicant). Applicant respectfully requests allowance of the claims.

No additional fee is believed to be required; however, in the event additional fees are required, please charge Deposit Account No. 50-1060.

Respectfully submitted,
